DETAILED ACTION

Claims 3, 9-12 and 15-18 are pending and have been examined.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 17 July 2006 has been entered.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Art Unit: 2193

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 3, 9-12 and 15-18 are rejected under 35 U.S.C. 102(e) as being anticipated by **McCulligh** (USPN 6,643,784).

Claim 3

McCulligh disclosed a computer system, said computer system comprising:

a bus (*column 3, lines 1-19*);

a central processing unit; memory, said memory being connected to said central processing unit via said bus (*column 3, lines 1-19*); and

a password validation mechanism, said password validation mechanism providing simultaneous feedback to a user regarding validity of a single password string against validity requirements of more than one password-protected resource (*column 4, lines 15-47; and column 4, lines 9-10; "thirty password rules"*).

Claims 9-12 and 15-18

The limitations of claims 9-12 and 15-18 correspond to claims 3 and 9-12 (based upon original rejections of claims 4-6, not repeated here for brevity) and as such are rejected in the same manner.

Response to Arguments

3. Applicant's arguments filed 17 July 2006 have been fully considered but they are not persuasive. Applicant failed to articulate why or how **McCulligh** is overcome by the current claimed invention, other than by amendment to the claims. It is believed that Applicant's view is the additional claim language overcomes **McCulligh**. This argument is not persuasive.
